FABRICATOR / SHEET METALWORKER - JOB DESCRIPTION

Sapcote Engineering Ltd, Leicester

We have an exciting new opportunity for a **Fabricator / Sheet Metalworker** to join us. You will be part of an 8-person fabrication team working for a leading manufacturer of high-quality conveyors, platforms, automated systems and robotic solutions. The principle job activity is the fabrication / sheet metalwork associated with food conveyor manufacture and access platforms. Common materials we work with are predominantly stainless steels and mild steels in thicknesses ranging from 1mm to 20mm. Another key element of the job includes site installations of manufactured systems which are often completed over weekends therefore some weekend availability will be required. The work is varied with many of our projects being bespoke engineering solutions.

FABRICATOR / SHEET METALWORKER ROLE RESPONSIBILITIES

- Reading and interpreting of technical drawings
- Cutting materials into the required shapes, checking dimensions and thicknesses
- Welding / joining metal and other materials into a wide range of structures
- Use of all typical fabrication shop machinery
- Working on varied jobs and materials
- Working on your own initiative
- Conforming with safety regulations

FABRICATOR / SHEET METALWORKER ROLE REQUIREMENTS

- 5+ years' industry experience working in a similar role
- Apprentice trained / highly-skilled with high standard of fabricating
- Experience (some or all) of Conveyors, Automation Systems, Robotics, Special Purpose Machinery, including Platforms & Walkways
- Ability to work to ISO 9001 & 1090 standards
- Food industry and site installation experience advantageous
- Clean driver's license

FABRICATOR / SHEET METALWORKER PACKAGE

Competitive Salary (+ paid overtime)
